Why Purchase Milnor?

- Larger cylinder volume than most competitive similar sized washer-extractors provides greater productivity. More linen washed per day, or fewer hours required to process. BENEFIT: Saves labor.
- Greater cylinder perforated-area generates *better wash* quality, *better rinsing* and *better extraction*. *BENEFIT: Better extraction saves dryer fuel.*
- Faster process times reduce fabric wear, promoting longer linen life! BENEFIT: Saves linen replacement costs.
- High perforated ribs provide excellent lifting. BENEFIT: Greater mechanical action leads to better wash quality.
- 200-G high extract provides excellent moisture removal. Lower extract speeds are available for uniforms, delicate textiles and blended fabrics.
 BENEFIT: Better extraction saves dryer fuel.
- E-P Plus Controller with back-lit LCD display allows operator to choose formulas from real words, not codes. Standard controller features English/Spanish (other languages optional). Controller also provides diagnostic and error messages. Shortens training time of new employees. *BENEFIT: Fewer operator errors.*
